

Significant Incident Alert

Type of Incident	Equipment Damage, HiPo Near Miss
Key Issues	Situational Awareness
INX Incident No	ID 66465
Date & Time	Sunday, July 25 th 2021, 1110pm
Location	Taranaki 1, T junction
Injury	None

DESCRIPTION

A Toyota Land cruiser 5 door (L1943), driven by the night shift supervisor and carrying one passenger had stopped to give way for a Caterpillar 793F haul truck HT213 and a Caterpillar 789C haul truck HT106 to pass.

Caterpillar 793F HT206 was on its way towards OK Ningi ROM to access HX06 when it slowed down to give way at the T junction behind the light vehicle, it came too close and contacted the rear doors of light vehicle L1943 resulting in damage to the rear windows and rear doors.

LESSONS

- ❑ Always be aware of your work surroundings and what goes on around you.
- ❑ Comply to critical system controls - they are there for a reason.

ACTIONS

- ❑ Review T junctions and where practicable include segregation of LV and Haul trucks.
- ❑ Safe Mine Collision avoidance refreshers to be rolled out.
- ❑ Review and inspect LV buggy whip lights.
