

TOKSAVE

Vehicle Pre-Start Books and Vehicle Standards

Ok Tedi Mining are introducing a new pre-start format for conducting an operational pre-start inspection on various types of motor vehicles and mobile plant and equipment.

In addition two new OHS Standards have been developed that apply to Motor Vehicle & Road Safety and Mobile Plant & Equipment. These standards will be socialised in the next quarter.

The following pre-start books have been ordered and will be available in the warehouse as store stock items for OTML business units only. Previous stock items are no longer being stocked and the current stock holdings will be used before the new items are supplied.

Material Number	Material description	Colloquial Description
10053120	Form, Pre-Use Checklist Mobile Crane	Pre-Start Checklist Mobile Crane
10053121	Form, Pre-Use Checklist Articulated Truck	Pre-Start Checklist Articulated Truck
10053122	Form, Pre-Use Checklist Bus	Pre-Start Checklist Bus
10053123	Form, Pre-Use Checklist Flatbed VLC	Pre-Start Checklist Flatbed VLC
10053124	Form, Pre-Use Checklist Heavy Vehicle	Pre-Start Checklist Heavy Vehicle
10053125	Form, Pre-Use Checklist Forklift	Pre-Start Checklist Forklift
10053126	Form, Pre-Use Checklist Light Vehicle	Pre-Start Checklist Light Vehicle
10053127	Form, Pre-Use Checklist ITC Loader	Pre-Start Checklist ITC Loader

Contracting companies and business partners will be required to adopt the same pre-start system. OTML will provide the soft copy of the pre-start books to business partners to enable them to procure their own pre-start books with their company logo.

Refer to the attached information poster which provides a snapshot of the new documents that are being introduced.

For more information on the new standards and pre-start books please contact Ken Adey, Kenneth.Adey@oktedi.com or Peter Lewis, Peter.Lewis@oktedi.com
