

NMSW –TPS Day 1:

01 May 2023

Introduction

The Power House Team started their National Mining Safety Week with the introduction of their safety week program for day 1 to day 5.

Two videos were shown, Light vehicle hazards & risk and the fatality of the 14 workers in OTML. One presentation highlighting the introduction to NMSW plan and guide.

This presentation highlights the most important information for all to be safe at work;

- All participated by asking questions
- The fatality video made all emotional, quite, like the feeling of getting the message deep inside.
- Day 1 session was presented by:
Casper Smakus.

Guest:

1. Manager Power Services – Francis Karogo
2. COS Safety - Geoffrey Saluap
